## CONTAINERIZING THE APPLICATION:

The screenshot displays the Docker Desktop application interface. On the left sidebar, navigation options include Containers, Images, Volumes, Dev Environments (marked BETA), Extensions (marked BETA), and Add Extensions. The main panel is titled 'Containers' and includes a 'Give feedback' link. Below the title, a toggle switch for 'Only show running containers' is present, along with a search bar and a menu icon. A table lists the running containers with columns for selection, name, image, status, ports, started time, and actions. One container, 'kind\_saha', is shown with ID '90dd6397eafd', image 'app:latest', status 'Running', and ports '5000:5000'. The bottom status bar shows system metrics (RAM 3.38GB, CPU 4.07%), connection status ('Connected to Hub'), and version information ('v4.13.0').

	NAME	IMAGE	STATUS	PORT(S)	STARTED	ACTIONS
<input type="checkbox"/>	kind_saha 90dd6397eafd	app:latest	Running	5000:5000	7 seconds ago
